A SOUND CONNECTION

Music at the tip of your fingers

iPod / iPhone MUSIC AND VIDEO PLAYBACK

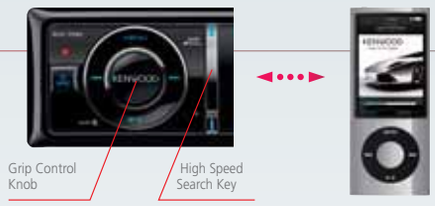
Made for iPod · Works with iPhone

For quality playback of video or music stored in an iPod and iPhone. The supplied cable KCA-iP301V enables easy connection to the KIV-700 via a USB 2.0 Direct connection for full speed data transfer and also doubles as a battery charger for your iPod. In addition, KIV-700 can play back Video from USB and internal memory. Available formats are MPEG4, WMV, H.264.

KCA-iP301V
Supplied iPod Video/Audio Direct Cable

iPod LIKE OPERATION

The grip control knob is similar to that of an iPod, making operation familiar for iPod owners. The high-speed search bar key allows users to scroll up or down through music and video files.



SEARCH FUNCTION

Simply press the SEARCH MODE key to access a variety of search modes. Direct Search enables searching by entering the first three letters of the playlists, artists, albums, songs, podcasts, genres or composers, then turning the knob right/left to get a list of songs. It is also possible to search using Alphabet Search, Skip Search and Related Search functions. iPod Control by Hands Mode allows the user to control from the iPod itself rather than from the headunit.

CREATED SPECIFICALLY FOR iPod AND iPhone USERS!

KIV-700

Made for iPod · Works with iPhone · Variable Color Illumination · Music Search · Favorite Memory · My Playlist · USB HUB READY · INTERNAL MEMORY · SOUND EXCELLENCE

AAC/WMA/MP3/WAV Receiver with iPod Control

3" Full Color TFT · Multi-Language Menu & Tag · AAC WMA MP3 WAV · MPEG4 WMV H.264 · USB+AUX · KME Lite · AV out for Rear Monitor · 50W X4 MOSFET · 4V 3 PREOUTS · RDS RADIO TEXT PLUS · Steering Remote Control Ready

* Optional unit KCA-BT300 is required for iPhone connectivity through Bluetooth.

USB HUB READY

With the new KIV-700, not only can iPod and USB memory devices be linked simultaneously, but it also enables iPod Direct Control through the USB hub connection.

* USB hub must be purchased separately.

MULTIPLE CONNECTIONS

* Only a maximum of one iPod and 2 USB memory devices can be connected at the same time.

USB TRANSFER / BUILT-IN MEMORY

With the Built-in Internal Memory for KIV-700, graphics and sound data from discs and USB Memory can be stored onto the device for convenient future usage.

KENWOOD MUSIC EDITOR LITE

KME Lite

KENWOOD Music Editor Lite allows you to readily create a music file database that can be used for compatible car audio systems from the music files stored in the USB device using a drag-and-drop or copy-and-paste technique. If you create a music file database using KENWOOD Music Editor Lite, you can search for a music file by genre/artist/album/song on a compatible car audio system. To download the Kenwood Music Editor Lite, please go to http://www.kenwood.com/i/faq/music_editor_lite/index.html.

BLUETOOTH IN-CAR ENTERTAIMENT

Powered by Parrot

KCA-BT300

KCA-BT300 is an add-on type Bluetooth adaptor for KIV-700

SOUND EXCELLENCE DSP

The Sound Excellence audio enhancement feature brings out all of the music masked by road noise and it includes a unique iPod EQ function that improves iPod sound quality by deactivating the EQ setting, allowing you to select from twenty-two EQ curves optimised for iPod playback in any vehicle.
